Portfolio: <https://lenieportfolio.onrender.com/> | **LinkedIn:** [linkedin.com/in/lenie-joy-badil](https://www.linkedin.com/in/lenie-joy-badil)

EDUCATION:

Bachelor of Science in Computer Engineering

Holy Cross of Davao College | 2026 Graduated

WORK EXPERIENCE

- **Social Media Manager** | 2021 - Present
- **Graphic Designer** | 2021 - Present
- **Website Developer** | SK DALAGDAG PORTAL 2026

LEADERSHIP & ORGANIZATION EXPERIENCE:

- **Institute of Computer Engineers in the Philippines Region XI (Student Officers)**
 - Holy Cross of Davao College Representative | 2023–2024
- **Alliance of Computer Engineering**
 - Assistant Secretary | 2023–2024
 - First Year Representative | 2022–2023
- **Supreme Student Government (SSG)**
 - President | 2021–2022
 - Cluster 8 Secretary | 2021–2022
 - Vice President | 2020–2021
 - Auditor | 2019–2021
 - Representative | 2016–2017
- **Sangguniang Kabataan (SK) Officer** | 2023–Present
- **Youth Leader** | 2020–2024
- **GKK PSB / Pangulo sa Kabatan-onan** | 2021–2022

ACADEMIC & TECHNICAL PROJECTS:

- **Tomatrix — IoT-Based Post-Harvest Tomato Monitoring System | Thesis**
 - Developed an IoT-based post-harvest system for monitoring tomato spoilage indicators and supporting shelf-life extension through real-time sensing and automated UV-C treatment.
 - Integrated **gas, CO₂, temperature, humidity, and weight sensors** with a web-based monitoring platform for spoilage detection and intervention.
 - **Contribution:** Handled research documentation and technical paper preparation, including content and references; coordinated professional calibration and experimental validation; supported system fabrication, hardware assembly, troubleshooting, testing, and component integration.
- **Smart Parking System — Arduino & IR Sensors | Academic Project**
 - Developed an Arduino-based smart parking system using IR sensors to detect parking-space occupancy and availability.
 - Implemented **Arduino programming, sensor-based detection, and real-time parking status monitoring.**
 - **Contribution:** Hardware assembly, IR sensor integration, Arduino programming, system testing, and troubleshooting.
- **Camera with Motion Sensor — ESP32-CAM | OJT Project, Cloud Line Technologies Inc.**
 - Developed an **ESP32-CAM monitoring system that detects motion and captures using a motion sensor.**
 - Applied **ESP32 programming, motion detection, camera interfacing, and IoT-based monitoring.**
 - **Contribution:** Hardware assembly, ESP32 programming, sensor integration, testing, and troubleshooting

- **RGB Lamp with Touch Sensor — ESP32 | OJT Project, Cloud Line Technologies Inc.**
 - Developed an interactive RGB lighting system using an ESP32 and capacitive touch sensor to control LED output.
 - Applied **microcontroller programming, GPIO control, touch sensing, and embedded-system design.**
 - **Contribution:** Circuit assembly, ESP32 programming, touch-sensor integration, RGB LED control, and testing.
-

AWARDS & ACHIEVEMENTS:

- **16th Engineering Congress - Council of Deans for Engineering Education Region XI (CODEE) | 2025-2026**
 - **Champion**, Best in Thesis Phototype (Commercial Category)
 - **Champion**, Best in Thesis Phototype (Merged Category)
 - **HCDC - CET Technofair | 2025-2026**
 - **Champion**, Best in Thesis Phototype
 - **Champion**, Most Visited Booth
 - **Kapamilya Award**, Inspiring Awards | 2025-2026
 - **Kapamilya Award**, Inspiring Awards | 2023-2024
 - **Kapamilya Award**, Served Awards | 2023-2024
-

TECHNICAL SKILLS & CORE COMPETENCIES:

- **Technical Skills**
 - **Graphic Design:** Canva, Branding, Infographics, Layout Design
 - **Video & Photo Editing:** CapCut, Lightroom, Filmora, Mobile Editing
 - **Web Development:** Visual Studio Code, GitHub, Render, Basic Website Deployment
 - **Social Media Management:** Facebook Pages, Content Calendars, Copywriting, Hashtag Strategy, Engagement
 - **Productivity & Organization:** Google Workspace (Docs, Sheets, Drive), Trello, File Management
 - **Computer Systems:** Basic Computer Systems, Hardware & Software Troubleshooting
- **Core Competencies**
 - Customer Service & Communication
 - Content Strategy & Planning
 - Creative Visual Storytelling
 - Social Media Engagement & Growth
 - Time Management & Organization
 - Attention to Detail & Quality Control
 - Problem-Solving & Adaptability
